Arturo:

This will serve to introduce Mr. William B. Martin, an attorney from New Orleans, associated with the Orleans Parish District Attorney's Office. Please make sure he identifies himself. I have advised him you know absolutely nothing concerning any activities in Mexico during September and October 1963, and that our acquaintance is derived from friendship, nothing else.

I have asked him to contact you only in the event I should become deceased.

On the other hand, and only if you know such should be the fact, I would ask that you furnish Mr. Martin a description of the following persons, as much as you can recall:

1. Maria del Carmen.
2. "Bob" (the caucasian guy who covered with me in Spanish at the party given by the Columbian & Chilean girls who worked at Hans Lawson)
3. The Chinese guy we met at Sanborn's restaurant one evening, with whom I exchanged business cards.

Dear Dick:

Thank you very much for the Christmas card. It was great to hear from you. You can tell the people in charge that I'll stand by you in the ways that they approve.

Sincerely,

Arturo

Dear Fred,

This will serve to introduce Mr. William R. Martin, an attorney, who is acting in my behalf. Please have him identify himself. I have advised him that our acquaintance is based strictly out of friendship and that you know absolutely nothing about my past doings and activities during the years 1962-1963. I have written you at least twice after being sent to Leavenworth, but never received an answer. Is everything O.K.? I hope you will keep confidence in me until I am someday in the position to tell you my side of the story, relative to the offense for which I have now been twice convicted and sentenced to the maximum penalty of ten years.

In the event you did not receive my last letter, and providing you still have possession of, or know the location of, my personal belongings, I would ask that you check them and give to Mr. Martin one of the small recording tapes which is labeled "Houston - August 23, 1962" or "Houston - August 27, 1962," or with similar phrases typed on the label. They are in a box (cigar box, I believe) devoted my films on Korea. If any of the tapes are unlabeled, then let him play the first part of them (if it is in Spanish) to ascertain which one is applicable.

Alternately, I would ask that you immediately dispose of all tape recordings that were in my trunk in September 1963, and also destroy my passport, and all "embarrassing material". (I have also advised Mr. Martin that you do not know the contents of any documentation, photographs, films, tracts, pamphlets or the nature of any belongings you have ever kept for me at my request). Please keep the other things for me, the non-embarrassing things, until I get out of this mess. Thanks you.
